### Interview with Stefania Deauville

**How does the program help you?** Answer: The program helps me. I sell products and I do some profit. With the profit I feed my kid. If he's sick, because of the profit I can go to the hospital with him. It helps me to take care of myself.

**Did you have business before getting into the program?** Answer: Before getting the program I had a business but that did not work anymore. Thanks to the program I restarted with this business. It is thanks to the loan I have from the Women's Bank I can restart my business.

**Where do you buy the the items you are selling?** Answer: On Saturday I go to buy them at Dufort. I go there to buy them. I sell in my house and in the market.

**Does the program help you to support your family?** Answer: Yes, it helps me. When I got the profit, If there's a member of my family who has a problem, thanks to the profit, I can help him/her.

**How do you see the program? How do you see it could be better?** Answer: The program is good. I like it.

**How do you think that group of women can be better?** Answer: I think that the program could do better when I borrow the money and I give the profit each month and they will gather the profit and then, they will give to another person. I think that more people will become beneficiary from the program, that will be better for the program.

**Do you think that you get success from the program?** Answer: Oh yes, I get Success ! Befcore I sat somewhere but now, I got a business. I go to the market every day. I got profit. I buy little things that I didn't have personally.

**How do plan to get to be more successful?** Answer: I plan to be more successful because I do some savings with the money of the business. Once I get the money, I will have more stuff to sell.

**Thanks to the programs that SMM implemented in the community, how do you see the community now?** Answer: So, I see the community becomes alive, because there are programs. Everybody would like to be part a program. There is livestock, and there many other programs, everybody would like to participate. They come to mass so that they can participate in the programs.

**How can you help the community?** Answer: So, the way I can help the community, I go buy, I come back and sell it in the community. I sell them for example clairin. They can buy clairin in my business and the resell it, the is in my way to help the community. Yes, in my way because I pay motorcycle to gp farther away and I bring it to them here.

**So, if you have some words to say to the parishioners of St Margaret Mary, those who provide the funds, the donors, what would you say?** Answer: What to say to SMM 's people, I say a big thank you to them and we are praying so that God can put in their hands for them to always help us, to help the community, thus, our live can be improved. Thank you!
