Amendment 4 is NOT what as it seems.

An extremely grave amendment has been placed on the November 2024 ballot that seeks to erase pro-life protections by inserting language into the Florida Constitution prohibiting regulation of abortion. The amendment would allow late-term abortions, including when science says the baby is capable of feeling pain, and would eliminate laws requiring parental consent and safety protocols for women.

The amendment, for example, would effectively overturn or seriously jeopardize common-sense state laws that have regulated abortion for years. These include basic health and safety requirements for clinics where abortions are performed, requiring a physician to perform abortions, informed consent requirements, laws limiting public funding of abortion, and parental consent requirements before a minor's abortion.
