Advocate Against

FL Executions Scheduled

September 10 & September 29

Our Bishops' recent Pastoral letter reminds us that work for an end to use of the death penalty is part of our call to protect the dignity of human life. Florida has executed 14 people in 2026. Florida has also had 30 prisoners on death row exonerated - more than any other state. Advocate for a stay of the executions planned this month. Visit flaccb.org/flcan-take-action or catholicismobilizing.org.

Creation Care Corner

"...to defend the earth and to safeguard water is to protect life." - Pope Francis

Sensible water saving tips that can save you money.

How you use water can have a significant environmental impact over time. It takes a lot of energy to pump the water, to make it safe for use, and to treat the wastewater. Low flow shower heads, washers, toilets and dishwashers reduce water waste and can save you money. Add faucet aerators for more savings and consider turning off the water while you're brushing your teeth or shaving. Fully loading your washers and dishwashers before running also saves water. Got a leaky faucet or toilet? You might be wasting 200 gallons of water a day. Planning on outside watering? Check the forecast for rain. Also, consider drinking tap water (filtered if necessary) instead of bottled water, to reduce packaging waste. The standards the EPA sets for tap water provided by public water suppliers are nearly identical (and test results more transparent) to those that the FDA uses to set bottled water standards. Quality is often similar if standards are met. More water saving tips can be found at <https://www.epa.gov/watersense>
